County-wide

Ray Hooper

BACKGROUND:

CC-4623-09/DRR will provide all labor, materials, equipment, tools, transportation, services and incidentals necessary for construction of a water treatment facility that extracts raw water from the St. John's River and treats it to meet reclaimed water quality standards, all in accordance with the drawings and specification in the complete scope of work. The water will be discharged to a new ground storage tank located on the site of the existing Seminole County Water Reclaimed Facility.

The project was publicly advertised and the County received four (4) responses, of which one (1) response was determined to be non-responsive. The Review Committee, consisting of Carol Hunter, Principal Engineer; Mike Harber, Engineer; and Dennis Westrick, PEI Manager; all from the Environmental Services Department, reviewed the remaining responses. Consideration was given to bid price, experience and qualifications.

The solicitation included several alternate bid items, and the Environmental Services Department has selected the bid alternates for the galvanizing of the structural elements for the Dewatering Building, and the interior liner panel for the metal portion of the Dewatering Building.

The Review Committee recommends award to the lowest-priced, responsive, responsible bidder, Encore Construction Company, of Winter Garden, Florida, in the amount of \$40,597,000.00, which includes the selected bid alternates. The completion time for the project is seven hundred and thirty (730) calendar days to Substantial Completion, and an additional sixty (60) calendar days to Final Completion, for a total Agreement time on seven hundred and ninety (790) calendar days from the issuance of a Notice to Proceed by the County. Sales Tax recovery program will be used in this project. The back-up documentation includes the Tabulation Sheet.

The Engineer's Estimate for this project was \$50,000,000.00, and funds are available in

Yankee Lake Surface Water Plant (Account #087817.560650, CIP #00181601) and Environmental Services Grants (Account #087110.560650, CIP #00181601).

STAFF RECOMMENDATION:

Staff recommends that the Board award CC-4623-09/DRR - Seminole County Regional Water Treatment Facility at Yankee Lake in the amount of \$40,597,000.00 to Encore Construction Company of Winter Garden, Florida.

Exhibit E

E. SALES TAX RECOVERY. *Sales Tax Recovery Resolution No. 96-R-177 will apply when deemed to be in the best interest of the County and as specified in the Administrative Code, Section 8.1513. These purchases shall be exempt from the County's Purchasing Code, preserving the sales tax exemption to the benefit of Seminole County. For construction projects that the material purchased is greater than one million dollars, staff should evaluate using the Sales Tax Recovery Program, providing that sufficient savings can be achieved. The procedures to be followed are:*

(1) The Contractor will include the cost of all construction materials and equipment in its Bid Price. The Bid Price will also include all Florida State sales taxes normally applicable to such materials and equipment. If the County elects to make sales tax recovery purchases, the responsibilities of the County and the Contractor shall be governed by this Section. All clerical, administrative, management, supervisory, inspection handling, storage, and other costs necessary for the Contractor to comply with Sales Tax Recovery are included in the Bid Price.

(2) The Contractor shall require major subcontractors to comply with these procedures.

(3) The Contractor shall furnish County with a Requisition identifying each item of material or equipment to be purchased by the Contractor for the project. This form shall be acceptable to the Project Manager and Engineer of Record. The Requisition shall include:

- The name, address, telephone number and contact person for the supplier.
- Manufacturer or brand, model or specification number of the item.
- Quantity needed as estimated by the Contractor or its Subcontractors and Suppliers.
- The price quoted by the Supplier for the material or equipment in question.
- Any sales tax associated with such quote.
- Shipping, handling and insurance costs.
- Delivery date as established by the Contractor or its Subcontractors and Suppliers.
- Special terms and conditions which have been negotiated with the supplier relative to payment terms, discounts, rebates, warranty, credits or other terms and conditions which will revert to the County.
- Statement with the submittal control number that materials have been reviewed and approved by Engineer and 3rd Party Construction Manager during the shop drawing submittal process.

(4) Promptly upon receipt of a Requisition, the County shall determine which items to purchase under Sales Tax Recovery. The Contractor will be notified of those items the County does not choose to purchase and becomes responsible for their purchase. The County will award a Purchase Order for the items which the County chooses to purchase. The Purchase Order shall require that the supplier provide shipping and handling insurance. The Purchase Order shall also require the delivery on the dates provided on the Requisition. A copy of each Purchase Order will be sent to the Contractor to verify that items ordered are in accordance with the required terms and delivery dates.

(5) The Contractor shall prepare and the County shall execute deductive Change Orders to reflect purchases made by the County. The amount of the deduction shall be based on the Purchase Order amount plus sales tax avoided. These Change Orders must be executed before the related Purchase Order will be paid.

(6) Nothing in this Section shall alter or modify the procedures for submission of shop drawings and other submittals by the Contractor.

(7) The Contractor shall be fully responsible for the receipt and acceptance of Sales Tax Recovery Items. At a minimum, the Contractor shall verify correct quantities, verify documentation, coordinate and expedite delivery, obtain and verify warranties required by the Contract Documents, inspect and accept each item at the time of delivery, unload, handle and store the item. Sales Tax Recovery purchases by the County in no way relieves the Contractor of compliance with specification requirements, coordination, protection, scheduling or warranty.

(8) As Sales Tax Recovery Items are delivered to the job-site, Contractor shall visually inspect all shipments, and approve the supplier's shipping documents and invoice. The Contractor shall assure that each delivery document identifies the Purchase Order against which the delivery is made. The Contractor will forward approved invoices to the County's Representative for payment.

(9) The Contractor shall inspect Sales Tax Recovery items prior to acceptance in accordance with the project's General Conditions. If the Contractor discovers defective or non-conforming items, it shall not utilize such items in the Project, shall promptly notify the County, and shall assist the County in obtaining repair or replacement of the item. The Contractor shall be fully responsible if it fails to perform such inspection or otherwise accepts defective or nonconforming material or equipment. The Contractor shall ensure that materials requisitioned have been reviewed by the Engineer and comply with specifications.

(10) The Contractor warrants Sales Tax Recovery Items the same as all other materials and equipment furnished by the Contractor and nothing in this Section shall alter or modify the Contractor obligations under the Contract relative to warranties.

(11) The Contractor shall purchase and maintain Builder's Risk insurance sufficient to protect against loss of or damage to Sales Tax Recovery Items. Such insurance shall cover the full value of any Sales Tax Recovery Items not yet incorporated into the Project starting from the moment of material delivery to the project site.

(12) The Contractor shall be liable for any interruption or delay in connection with Sales Tax Recovery Items.

(13) The Contractor shall provide the County's Representative with a monthly report documenting the amount and nature of Sales Tax Recovery Items accepted by the Contractor. The Contractor shall match all material and equipment to purchase orders, invoices, delivery tickets, and inspection and acceptance reports. The Contractor shall also obtain lien waivers and other releases from suppliers. Upon receipt of appropriate documentation from the Contractor, payments will be made directly by the County to the appropriate supplier in accordance to the Purchase Order's terms and conditions.

(14) The Contractor shall maintain records of all County Sales Tax Recovery purchase items incorporated into the Work. These records shall be available for inspection by the County upon request.
